Simple, fast installation

- **Direct-fit LED innovative design**
- Integrated IEC 60061 base for wider compatibility
- Same size constraints as comparable halogen bulbs
- Universal compatibility - No adapter rings or compatibility list required
- Available in types **H7/H18, H4/H19, H11, HIR2, HB3/4, H1, H3 and Fog (H8, H9, H16)**

Better light performance than halogen

- Improved vision : +80% extra brightness* on the road, ahead of the car
- Better light beam than most halogen bulbs for a safer driving
- 6000 K bright white light for a stylish LED look

Reliable Philips quality

- Advanced automotive lighting system
- **EMI compliance on electromagnetic interference**
- Long-term durability and long-lasting performance
- Precise fit and easy installation
- Long-lasting LED performance
- 2-year +1 warranty cover**

*Compared to the minimum legal standard for halogen bulbs. ** 2 years standard + 1 year extended. Registration on philips.com/auto-warranty.
*** It is your own responsibility to ensure that the use of the LED retrofit lights complies with applicable local legal requirements.
